

# Modular building

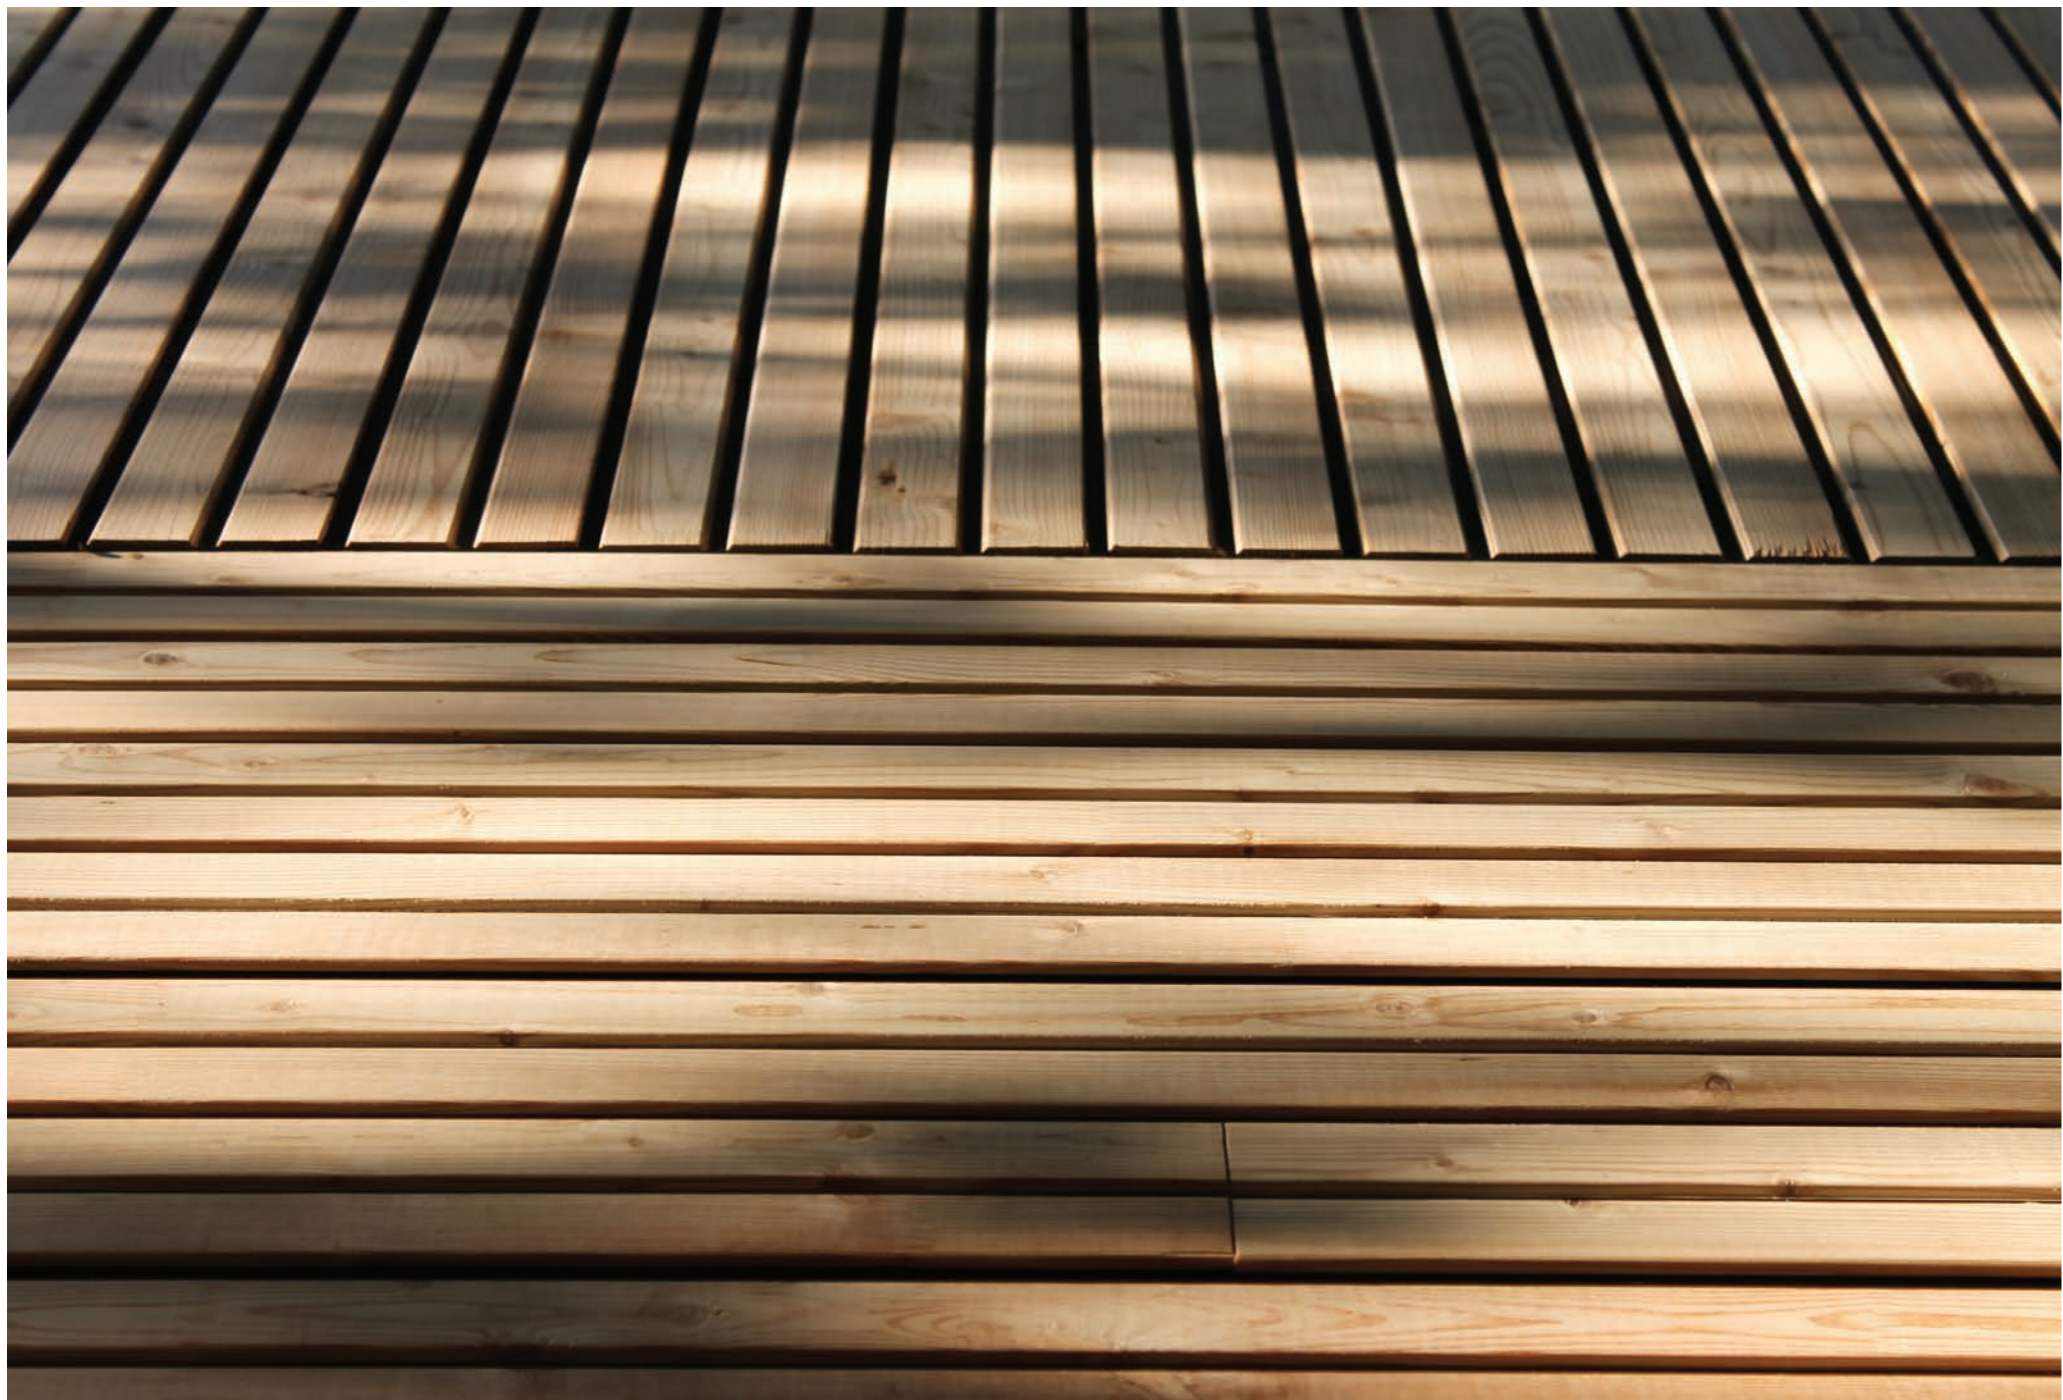

CABÜ is a modular building system engineered to combine an appealing modern architectural design with a super-fast build.

CABÜ is for permanent buildings and has a high structural performance. Its interior spaces shows off its timber structure which is kept visible.

CABÜ provide good eco credentials and appealing interior space.

CABÜ can be used for retail space and a range of buildings have been designed for this purpose.

CABÜ also have a range of buildings for other commercial uses including offices, leisure and community.

CABÜ have a range of residential houses that are energy efficient. Our unique highly insulated system has a low environmental impact.

Intelligently engineered, these houses are spacious and desirable.

A taste of the future

CABÜ's quality architect designed buildings are for living and working.

CABÜ as a modular building system is super-fast to build and is comfortable in any environment.
