

STUDIO MODULES

CABÜ is a modular building system, conceived to create a solution to the modern day demand for high quality easy to construct buildings.

Our architects, engineers and designers have collaborated to produce beautiful, efficient and environmentally sound buildings that meet current residential and commercial regulatory standards.

CABÜ

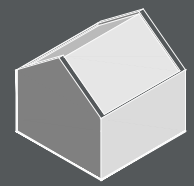

- Modular construction for living and working
- High quality structural and architect design
- Beautiful, honest and robust
- Innovative design approach
- Intelligently engineered
- Energy efficient with low environmental impact
- Stylish interior design options
- Meticulously detailed
